**CONTENTS**

- |    |  |    |  |
|----|--|----|--|
| 5  | <b>The immunohistochemical detection of substance P (SP) in the pancreas and intestine of three species of lower vertebrates; light-microscopic observations</b><br>I. Trandaburu, T. Trandaburu | 49 | <b>Behavior of different potato varieties on seed production process, using of different culture substrates on greenhouse</b><br>Nistor A., Karacsonyi D., Chiru N., Campeanu G., Atanasiu N.        |
| 11 | <b>ADAM17 gene expression in laser-capture microdissected breast cancers</b><br>D. Narita, E. Seclaman, R. Ilina, N. Cireap, G.C. Pribac, A. Ardelean, T. Nicola, A. Anghel                      | 55 | <b>Research regarding the germination process in <i>Ocimum basilicum</i> L. in an experimental environment</b><br>Padurariu C., Burducea M., Zamfirache M.M., Gales R., Ivanescu L., Toma C.         |
| 19 | <b>Evaluation of metabolic status of cancer cells by histoenzymatic and immunohistochemical analysis</b><br>A. Pallag, A. Ardelean   | 59 | <b>Indirect determination of sulphur dioxide and sulphuric acid by flame atomic absorption spectrometry</b><br>El Saih F.M., Nagy D., Hegedus I., Posta J.   |
| 23 | <b>The immunohistochemical study of endometrial and endocervical carcinomas using anti-vimentin in coexpression with anti-ER</b><br>A. Radu, C.D. Frandes, O. Pop, M. Sferdian, I.D. Stretcu     | 65 | <b>Land historical evaluation of the Erdőpuszták region of Eastern Hungary by using GIS methods with special regards to the relict hardwood forest of Nagycsere</b><br>Antal Z., Juhasz L., Antal B. |
| 27 | <b>Assessing the health condition of students with sports program by anthropometric nutrition</b><br>S.G. Jelea, M. Jelea, R. Hotea  | 71 | <b>Contributions to the study of the corticolous lichen vegetation of the Padurea Craiului Mountains (Bihor Department, Romania)</b><br>Crisan F.  |
| 35 | <b>Initiation of <i>Opuntia fragilis</i> var. <i>fragilis</i> in vitro cultures</b><br>T.I. Vidican, D. Cachita-Cosma  | 77 | <b>Development of a new, more adequate method for the determination of soil acidity</b><br>Vago I., Czinkota I., Rekasi M., Sipos M., Kovacs A., Tolner L.   |
| 41 | <b>Spring drugs of <i>Betula pendula</i> Roth.: Biologic and pharmacognostic evaluation</b><br>Peev C., Dehelean C., Mogosanu C., Feflea S., Tiulea C.   | 81 | <b>The effect of indoor biggame keeping on forest vegetation</b><br>Gyori J., Juhasz L., Szendrei L., Redei K., Kovacs S.  |
| 45 | <b>Plant extracts from meristematic tissues (foliar buds and shoots): Antioxidant and therapeutic action</b><br>Militaru A.V., Simedrea I., Alexoi I., Peev C., Bernad E., Toma C.C.             | 87 | <b>Instructions for authors</b>  |

#### **COVER IMAGES**

Upper-left image: LDH activity after treatment (x200) (p. 21, fig. 5)

Lower-left image: Plants on expanded clay granules (p. 52, fig. 10)

Right image: Intestinal villi in the turtle *Emys orbicularis* exhibiting a lot of immunostained thin nerve fibers (arrowheads) spread among the villi axes, as “open” varieties of labelled cells (arrows), middle intestine, PAP- procedure, x82 (p. 10, fig. 10)
